

2022-2023 ELIGIBILITY POLICY

If it is discovered that an athlete is on a team that does not meet the eligibility for the division, the team will be removed from the National Rankings Competition that is put on by The Open Championship Series.

Any points that are gained from competing at our partner events will be removed, and all teams from that gym location will be ineligible from participating in the National Ranking Competition that is hosted by The Open Championship Series for the remainder of the current season.

This includes crossover ineligibility from Prep to Elite teams, ineligibility because an athlete does not meet the age requirements for the division, and all other requirements for each division based on athlete participation.
