

Athlete Replacement/Substitution Policy

Updated: 6-11-24

- 25% of the number of athletes on your team may be replaced.
- 75% of your team that received the bid must compete.
- If less than 75% of your team can compete in the division you received your bid, you are eligible to enter the battle round.
- You are eligible to add athletes up to the division maximum. (Example: 16 athletes on the team when you received the bid. You can add 7 more athletes to bring you to the maximum number of athletes for the Small Division.)

International Teams receiving their bid a year prior to when they attend ASWC will have these additional exceptions.

- If you are an International team that received your bid the year prior to the ASWC that you are attending, you must compete with 50% of the team that received the bid for that division.
- If you are unable to compete with 50% of the team that received the bid, you are eligible to compete in the battle round.
- These teams are allowed to move up one age group from which they received their bid. (Example: Bid was received in Youth Level 2. The team is eligible to compete in Youth Level 2 or Junior Level 2 the following season.)
