Scoresheet is out of 100 points instead of 50 points. - Directly translates to percentages, making it easier for parents, coaches, and athletes to understand scores at a glance.

Stunts (Levels 1-3) - Only *ONE* Elite skill by Max groups and **THREE** Elite skills by Most groups in order to get the top baseline score.

Stunts & Tumbling (Levels 4-7) - No Classification of Level Appropriate and Elite Level Appropriate Stunts for Levels 4-7. Only 4 Level Appropriate stunt skills are required to get the top baseline score in these levels.

Standing Tumbling: Cumulative for all levels. Levels 1-3 still require the same skill to be performed, however that is now cumulative instead of synchronized.

Running Tumbling: Pathway to Maximum Baseline score is easier to attain. (Fewer passes are needed to get the top baseline score.)

Level Appropriate Skills - List of level appropriate skills has been included in document for all levels.

Building Quantity Chart - Larger teams Max number has been adjusted. (Teams with 28 or more athletes require less Max groups than 2024-2025 season)

Building Stunt Difficulty - When determining Most/Max, teams will not have to do the same skill, however the elite skills must be synchronized or rippled in order to count as Most/Max quantity.

To help gyms retain athletes as they progress and develop their skills, we have updated our scoring system for Levels 4-7.

- Teams can now achieve the highest baseline stunt score in these divisions by successfully executing four (4) level appropriate skills.

- The previous list of level appropriate and elite level appropriate skills for Levels 4-7 has been replaced by a list of level appropriate skills.

- The subjective Baseline Boosters will allow teams that perform more challenging skills and incorporate more stunt groups with those skills to earn higher scores in these divisions.

- The same approach will apply to the Baseline and Baseline Booster scores for the tumbling category for Levels 4-7

ADDITIONAL STUNT/PYRAMID INFORMATION

- Body Positions: Stretch, Bow and Arrow, Arabesque, Scale and Scorpion.
- Lib, torch, hitch, and platform are not considered body positions.
- Release style stunts must be free of contact from the bottom of the foot to count towards difficulty credit as a release style skill
- Elite Skills that are synchronized or rippled must be the same skill in order to count towards your Majority, Most, or Max quantity
- Pyramid structures consist of two or more stunts connected to one another
- When Most/Max is used in the pyramid difficulty chart, it is only referring to the structures.
- Building Skills will get Stunt or Pyramid difficulty credit. They will not count in both categories at the same time. If the stunt is going to connect to another stunt, it will count as a pyramid skill.
- Refer to Rules Glossary for additional definition of skills - (Inversion, Tic Tok, Twist, Release Move, Release Style, Bracer, Etc)
- Must be fully released from all athletes on the performing surface to be considered a dismount. Stunts that are not fully released from bases are always considered transitions.

STUNT DIFFICULTY COED CREDIT

Only skills listed under Coed Style Level Appropriate Skills list will count

Rippled or synchronized in the same sections without recycling athletes

Stunts must be held for 4 counts. Counts begin once the stunt hits the intended level

Coed stunts must dismount to the performance floor to receive full credit

Coed stunts that become part of a pyramid will not receive Coed credit

COED STYLE

Based on a group of 3 (Base, Flyer & Support Person)

Entry must be a Toss or Walk-in

Base must be directly under the stunt

Base and Support Person cannot be chest to chest

Only 1 Coed Style Stunt is required for Levels 3-5

Coed Style Stunt counts towards the requirement regardless of the gender of the athletes performing the stunt.

ADDITIONAL TUMBLING INFORMATION

L1 - Cartwheel does not get standing tumbling credit.

Pauses, Steps, or Cleans between skills will not count as connected skills

Tumbling passes must land on feet **ONLY** to receive level appropriate difficulty credit (ex: Jump 3/4 front flip to seat, back handsprings which lands in a prone position would not count)

Jumps within a pass will not break up the pass (ex: Toe Touch - BHS - Toe Touch - BHS is 1 pass in L3

T-Jumps are not considered a jump and will break up a pass into two separate passes.

Skills that are illegal for a lower level do not automatically make them a Level Appropriate Skill for a higher level.
L2 - No L1 skills out of a round-off that are illegal in L1 will count for level appropriate credit.
L3 - No L2 skills out of BHS-stepout 1/2-turn that are illegal in L2 will count for level appropriate credit
L4 - Punch front forward roll will not count for level appropriate credit.
L5 - Not all L4 skills out of a standing tuck that are illegal in L4 will count for level appropriate credit (ex: BHS - Tuck - BHS or Tuck - BHS)

Skills that are not required to be synchronized may be cumulative to meet a difficulty requirement.

ADDITIONAL JUMP INFORMATION

Jump skills must land on feet to be receive difficulty credit (ex: jumps that land on knee(s) or seat would not count)

Advanced Jumps: Pike, Right/Left Hurdler (Front or Side), Toe Touch

Jumps must use a whip approach to be considered connected. Whip approach: continuous movement through swing connecting 2 or more jumps.

OBJECTIVE VS. SUBJECTIVE SCORES

Subjective scores are assessments made by judges or officials based on their personal interpretation rather than objective, quantifiable measurements. Unlike objective scores that are determined by clear, measurable criteria, subjective scoring relies on the judges' observation and evaluation of the performance. The subjective areas of the scoresheet add an element of artistry and interpretation from the judge that is scoring the team.

The baseline score areas are objective areas of this scoresheet. The baseline boosters, choreography/presentation, and Routine & Dance portions of the scoresheet are subjective. Additional objective areas: Jump Difficulty and Toss Difficulty

Quantity of skills: Tumbling performed demonstrates a high percentage of the squad.

Utilization of connected skills: Skills performed demonstrate immediate transition from the completion of one skill to the initiation of the next skill.

Variety of skills: Utilization of different elements and/or skills. Tumbling performed includes a variety of skills within the skill set being shown. (Is a Jump included for standing tumbling? Is it 3 of the same skills connected? Is it 3 different skills connected?)

Value of Skills: Increased complexity of level specific skills demonstrated.

Utilization of minimal bases: Stunts performed demonstrate skills involving the least necessary number of athletes. (Additional athletes may be added to the traditional stunt group (4 athletes) in order to safely create and demonstrate skills.

Utilization of combined skills: Stunt elements demonstrate two or more skills performed as one. (Examples: a spinning tic toc, a spinning inversion, a multi trick toss, etc.)

Utilization of connected skills: Skills performed demonstrate immediate transition from the completion of one skill to the initiation of the next skill.

Movement and usage of floor: How the stunts performed change position, evolve, transition, and maneuver in reference to each other and the floor.

Variety of skills: Utilization of different elements and/or skills.

Quantity of skills: Display of a cumulative number of skills throughout the routine, performed by one or more groups.
